

At IP3 we are currently conducting CISSP® training as 5 day boot camps and 10 week online programs. We are interested in scheduling more regional boot camps this winter and spring. We would like to offer world class CISSP® training to you and other Security professionals.

## **CISSP® Training Solutions**

**IP3 provides the most comprehensive and complete programs** to assure successful certification in Information Assurance and IT Security. These programs have been designed and developed by the nation's leading experts in security education; IP3's unique solution suite ends the debate between teaching the test vs. teaching for competency.

***"It's not just teaching the test or teaching security - you need both and IP3 gives you both."***

### ***Flexible Training to meet YOUR Needs***

Each candidate approaches their training and education needs with different deficiencies, different learning styles and different access to various resources. IP3 doesn't advocate a mandated curriculum or methodology. Rather, we give the candidate the most comprehensive set of options in the industry. This allows three dimensions of customization.

- ***Each candidate has a different "gap" to address.*** Forcing everybody through the same coverage can waste vital time while those with the greatest need for in-depth coverage are usually shortchanged.
- ***Each candidate profits from unique learning styles.*** Some are audio learners while some are visual or kinesthetic (hands on). Some want to read while others want to listen.
- ***Each candidate desires flexibility and convenience.*** It's not just learning modality that influences the choice between live online discussions, reading, practice exams, audio or video, but also the situation the candidate confronts in finding time to study. Is it while driving to work where audio would help, or is it on a train commute where a video Podcast enhances the learning? Can they join a live session during the day, or do they need to block a week out of the office to focus and get down to the business of studying?

**Advantage of CISSP® Certification** There are more than 1000 Jobs on Monster, more than 800 jobs on Dice, more than 600 jobs on Career Builder, where CISSP® certification are required **CISSP® Certification is professional development education.**

**IP3 believes time is a precious commodity in the fast paced world of IT security. So, it is not a question of IF you are certifiable but WHEN you can find the time to become certified. No matter what your time constraints, budget restrictions, or learning style, IP3 has a solution for you.**

### What Every Student Gets:

- **45 Hours of Online Sessions**
- **Archived Audio / Video Downloads**
- **Over 1000 Practice Questions**
- **Complimentary invitation to our two day 'From Strategy to Reality' IT Seminar**
- **Group Discussion Forum at [www.ip3inc.com](http://www.ip3inc.com)**
- **Shon Harris' "CISSP® Certification All-in-One Exam Guide"**
- **IP3 Workbook**
- **Apple iPod Touch or Classic\***
- **IP3 Security Tools CD**
- **Transcender Practice Exams Online Sessions**

**IP3 Workbooks**

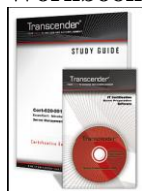

**NIST Handbooks**

**Apple iPod Touch**

**Shon Harris Guide**

**Transcender Practice Exams**

**IP3 Security Tools CD**

**Online Sessions**

### CISSP® ONLINE TRAINING PROGRAM

IP3's instructor-led and interactive online training program provides comprehensive and in-depth self-study materials and online technical support that cover the 10 domains of the **Common Body of Knowledge (CBK)**. Each domain is broken down into a live hour and a half session held on Wednesday and Friday with a follow-up review session every Monday.

We use a WebEx platform to allow for viewing, phone conferencing, and instant messaging and in this way you are not just listening to the lecture you are participating in it. Through this approach we maximize human contact and interaction between not only you and your instructor but your peers as well.

**Option 1 - Video Assisted** Includes all materials listed above with 8GB iPod Touch

**Option 2 - Video Assisted** Includes all materials listed above with 30GB iPod Classic

**Option 3 - Basic** Includes all materials listed above without iPod
